

Risk Management, Project Management, Software &
Training Solutions for Dynamic & Progressive Industries

CORPORATE PROFILE

Enterprise Risk Solutions Group Limited

1 Introduction

Enterprise Risk Solutions Group Limited (ERSG) is a group of companies that started in 2003 in Australia and from the outset offered its clients a diverse range of sustainable business solutions. The solutions are founded on sound development and implementation of risk and project management whilst using internationally recognized strategic processes.

ERSG is a management consulting firm specializing in the areas of **Enterprise Risk Management**, **Project Management** supported by **Management Software**. A wide range of **Accredited and Non-accredited Training** is also available.

2 Our Mission

Slogan

Risk Management, Project Management, Software & Training Solutions for Dynamic & Progressive Industries.

Description

ERSG is a world renowned developer of sustainable business solutions in the fields of Risk and Project Management supported by dynamic software.

Mission Statement

Profitable growth through the delivery of superior, sustainable, customer focused business solutions producing innovative and dynamic outcomes.

3 Our Approach

Enterprise Risk Solutions Group Limited (ERSG) offers its clients a diverse range of effective business solutions by ensuring that the proposed approach is project and client specific but at the same time ensuring that it meets global accepted and recognized practices.

Our **Risk Management** solutions approach is based a wide range of international standards (ISO 31000, AS/NZS 4360) but always tailored to meet the requirements of each project based on company and country requirements.

Our **Project Management** solutions approach is defined by developing specific tailored but internationally accepted processes for each project. ERSG uses 'Prince2' as its base approach.

Our **Business Software** consists of well-established functional databases giving support to client solutions and providing the ability to turn information into intelligence.

Our **Training** solutions approach is delivered under the **Australian Training Qualifications Framework (ATQF)** through our **Registered Training Organization (RTO)**.

4 Our Background

ERSG has delivered customized, practical and integrated solutions to assist its clients with the development & management of their assets, personnel, systems, processes, products and services for the past 10 years.

ERSG has been responsible for the completion of a diverse variety of projects that includes the following industry sectors; Medical Facilities, Petrochemical, Drilling, Mining, Utilities, Telecommunications, Construction and many more.

ERSG has an established a large resource pool of over 200 consultants which consists of full time employees, contractors and specialist service resources.

ERSG partners organizations in projects and manages risks by building a sustainable client partnership complete with full commitment, participation, innovation and integrity to ensure that their activities are in compliance and aligned with applicable standards, client requirements and relevant legislation.
